

The 'Young Club' of the French Society for Radiation Protection (SFRP) *History and future*

Sylvain Andresz, Tiffany Beaumont, Pedro Caldeira-
Ideias, Mélanie Maître, Sophie Vecchiola

*5th European IRPA Congress - Young Generation Network Launch Event
The Hague, The Netherlands, 04-08 June 2018*

Once upon a time, there was ... a (beautiful) Club sleeping ...

Then it awakes ...

- Funded in 1997
- Almost no activities since 15 years
- Revitalization was in the air... and it was formally refunded in 2016
- Today, the Young Club gathers ~ 15 young RP professionals who have implemented various actions

act as Club as a whole
+ involvement within the
branches of SFRP

**favor cooperation between
young professionals** at national
and international scale
⇒ *international survey*

investing social media

**participate in the planning
of SFRP events**
+ *planning our event*

action toward students

Act as Club as a whole

- Involvement in the different SFRP areas of activities (*a corresponding member in each section*)
- Periodic meeting to review current and future activities
- Organisation of technical visits

Technical visit at IRSN, le Vésinet (June 2016)

Action toward students (*in progress*)

- **Support of the E&T section**
- **Identification** of the various French training courses in RP
- Setting up a **job-seeking / internship-seeking website**

action toward students

- In collaboration with the Rising Generations Group of the UK Society of Radiation Protection
- An electronic survey was disseminated to Young Professionals working in RP (*via IRPA network in particular*)
 - Aimed to better know the Young Professionals around the world working in RP
 - Opportunity for Young Professionals to express their needs and wishes
- Results now on-line: <https://tabsoft.co/2IalFEO> (feel free to share!)

⇒ results can help inform the objectives of IRPA YGN going forward and foster the young generation, encourage initiatives and common actions

action toward students

Participate in SFRP events

- Invitation of one guest lecture during the last SFRP National Congress. Presentation dealt with RP in Space

SFRP
Club des Jeunes Sociétaires

La radioprotection dans l'espace

SPACE, The final frontier

?? Comment Cs, radioprotection dans l'espace ??

Le Club des Jeunes vous invite à découvrir:

Alessandra MENICUCCI
 • Professeur assistant en Space Systems Engineering
 Université de Delft
 • Analyste des effets de la radiation cosmique
 European Space Agency
 • Ph.D. Université de Rome Tor Vergata

Est-il possible de faire un voyage dans l'espace sans penser à la radioprotection de l'homme?

T'inquiète... ils ont pensé à tout au club des jeunes de la SFRP

Comment protéger les astronautes des radiations dans l'espace?

Comment suivre nos actions ? Rien de plus simple!

Organisation of its own event

- April 16, 2018
- **“Radiation Protection: What innovation? What Future?”**
- **53 participants: students and young professionals**
- Organisation of **2 workshops** aiming to brainstorm on the future challenges of RP research for workers and public.
- Based on these results, preparation of a paper to be published

To be continued ...
