

Claire-Louise Chapple – IRPA Executive Council Member

SRP, UK

Dr Claire-Louise Chapple has over 30 years' experience in the field of radiation safety and medical physics and currently heads the Imaging Physics & Radiation Safety Group at Newcastle upon Tyne Hospitals NHS Trust in the United Kingdom. Claire-Louise acts as a Radiation Protection Adviser and Medical Physics Expert in diagnostic radiology physics and teaches on the Newcastle Medical Physics Masters' Programme. She is a Fellow of both the UK Society of Radiological Protection (SRP) and the Institute of Physics and Engineering in Medicine (IPEM) and is a past Honorary Secretary of SRP and currently Chair of the SRP Governance Committee. She is also the Vice President International of IPEM.

Claire-Louise's international experience includes participation as research partner in a number of IAEA Coordinated Research Projects, and as IAEA Consultant developing guidance documents and providing training during several Expert Missions within Africa and Asia. She also contributed to a series of International Workshops on Radiation Safety Culture in Healthcare, and was lead writer of the subsequent IAEA IOMP IRMP WHO publication on this topic. Claire-Louise was elected to the IRPA Executive Council in 2021 and is looking forward to her second term in office.
