

IRPA 17

ENSURING RADIATION PROTECTION FOR THE FUTURE

29 MAY-2 JUNE **2028**
VALENCIA • SPAIN

17TH INTERNATIONAL CONGRESS
OF THE INTERNATIONAL RADIATION PROTECTION ASSOCIATION

KEY IDEAS

1

Fostering **Radiation Protection Culture**

There are important challenges...

- **New technologies in medical applications** of radiation
- **Impact of AI on RP**
- **New nuclear projects** (SMR, AMR, Nuclear Fusion projects,...)
- **New countries & organizations** entering into nuclear applications
- **The review and revision of the ICRP System of Radiological Protection**

Engaging with the **Young Generation of radiation protection professionals (YP)**

2

- Scientific and Organizing Committees
- YP special registration rates
- YP competition and awards
- YP social activities
- Interaction with the public and outreach

The Spanish Society for Radiological Protection (SEPR)

in cooperation with
